

## Hygge Curriculum

Each week's planning has a focus.

In the weekly overviews you can see what the focus is and what the children will be learning. We also give a brief overview of **HOW** they will be learning not just **WHAT**.

There are seven areas of learning and development. These are the three prime areas:

- ✓ Communication and Language (C&L)
- ✓ Personal, Social and Emotional Development (PSED)
- ✓ Physical Development (PD)

The four specific areas are:

- ✓ Literacy (L)
- ✓ Mathematics (Maths)
- ✓ Understanding the World (UTW)
- ✓ Expressive Art and Design (EAD)

The activities and skills are linked to these seven areas. There is also vocabulary linked to the weekly focus along with maths-specific vocabulary, all of which is displayed in the classroom.
